

Latest Work Process

Sprint Retrospective

- Conducted Fridays after the project presentations
- Discuss what the group learnt from technological, documentation or process perspectives
- Discuss conflicts, problems and shortcomings throughout the sprint
- Discuss what could be done differently to improve
- Discuss feedback or questions raised by product owners

Sprint Planning

- Conducted Fridays after Sprint Retrospective
- Adjust backlog according to retrospective
- Oversee DoD (Definition of Done) i.e. acceptance criteria, what is expected and required from the user stories or task
- Discuss what needs to be done throughout the upcoming sprint

Sprint Process

- Daily Stand-ups via Slack or face-to-face
- During stand-ups discuss what you manage to do, what are you planning to do, do you have any impediments or if you need/want help
- Update Trello on a regular basis
- Use GitHub issues to monitor issues
- Pull requests should be approved by everyone
- Meet every Tuesday and Friday at 10:00

- Additional meetings can be added when seen fit. The purpose of these meetings are for pair programming, additional planning, working on meeting deadlines
